
LUXURY GOLD BASINS

GD[®]
GLASS DESIGN
ITALY

SIT ON BASINS

500 x 500 x
140h mm

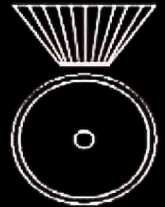

Roma Series ROMAFO

Sit on basin

Finish: Gold Leaf 3D TeknoForm®

Material: TeknoForm®

TeknoForm is a polymer-based material. It expresses itself by enhancing the surface of its products. From mosaics to stone, from marble to wood, an incredible variety of solutions can be realised in creating unique products.

400Dia x
155h mm

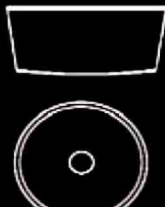

Tekno40 Series TEKNO40LGD

Sit on basin

Finish: Gold 24 kt

Material: Florence Glass
ATELIER®

The "Florence Glass Atelier" project is inspired by embedding the philosophy of the fashion world into product research. The focus lays on enhancing crystal material with colours and textures of fashion trends.

399Dia x
180h mm

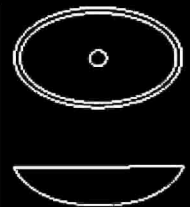

Forma Lux Series FORMALXGD

Sit on basin

Finish: Gold 24 kt Florence Glass Atelier

Material: Florence Glass
ATELIER®

The "Florence Glass Atelier" project is inspired by embedding the philosophy of the fashion world into product research. The focus lays on enhancing crystal material with colours and textures of fashion trends.

510 x 345 x
155h mm

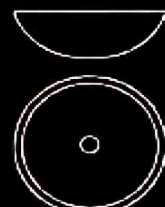

Ice Oval Series ICEOVGDF3

Sit on basin

Finish: Gold 24 kt Florence Glass Atelier

Material: Florence Glass
ATELIER®

The "Florence Glass Atelier" project is inspired by embedding the philosophy of the fashion world into product research. The focus lays on enhancing crystal material with colours and textures of fashion trends.

420Dia x
145h mm

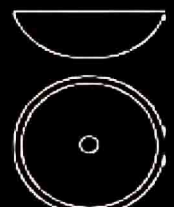

Mosaic Series MOSAICFO

Sit on basin

Finish: Gold Leaf 3D TeknoForm®

Material: TeknoForm®

TeknoForm is a polymer-based material. It expresses itself by enhancing the surface of its products. From mosaics to stone, from marble to wood, an incredible variety of solutions can be realised in creating unique products.

500Dia x
140h mm

Circus 50 Series CIRCUS50FO

Sit on basin

Finish: Gold Leaf 3D TeknoForm®

Material: TeknoForm®

TeknoForm is a polymer-based material. It expresses itself by enhancing the surface of its products. From mosaics to stone, from marble to wood, an incredible variety of solutions can be realised in creating unique products.

UNDER-COUNTER BASINS

Flou Series FLOUSFO + SCGDP + TP

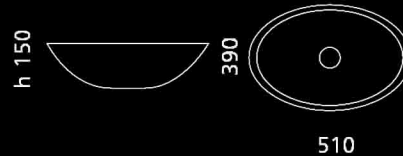

Under counter basin

Finish: Pert 3D Gold Leaf

Material: **Pert**[®]

polimero tecnologico

Pert[®] is a technological polymer of extraordinary quality, combining a low specific weight with high mechanical resistance. It is particularly suited to fields where light weight is essential (e.g. in nautical, aeronautical, camping, ...). It is a material which enables the creation of products of high design, finely made, allowing perfectly crafted angles and a smoothly plane surface, with the possibility of choosing among a wide range of colours to suit individual demand.

Blade Series BLASFO + TPG

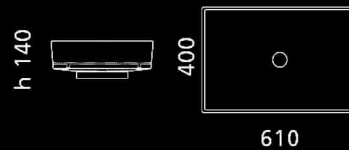

Under counter basin

Finish: Pert 3D Gold Leaf

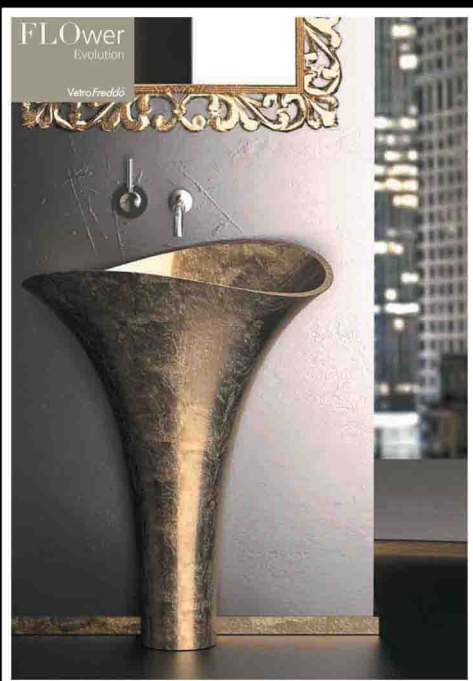

Material: **Pert**[®]

polimero tecnologico

Pert[®] is a technological polymer of extraordinary quality, combining a low specific weight with high mechanical resistance. It is particularly suited to fields where light weight is essential (e.g. in nautical, aeronautical, camping, ...). It is a material which enables the creation of products of high design, finely made, allowing perfectly crafted angles and a smoothly plane surface, with the possibility of choosing among a wide range of colours to suit individual demand.

FREE-STANDING BASIN

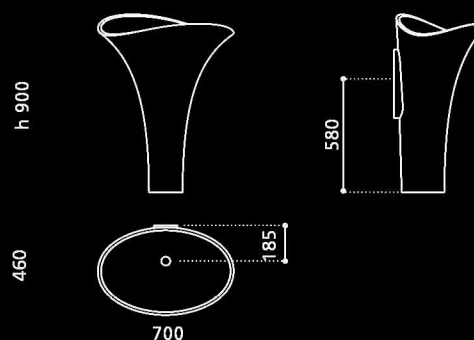

Flower Evolution Series FLOEVOFO

Free-standing basin

Finish: VetroFreddo Gold Leaf 3D

Material: **VetroFreddo**[®]

VetroFreddo[®] is an innovative material composed of glass pigments and resin. Its major characteristics are its versatility in adapting itself to any form or shape imaginable. The material's unique characteristics are expressed through the soul of its colour, which can be in transparent, semi-transparent or opaque form, due to the material composition of glass pigments. No limits exist in regards to colour. Apart from the existing range of colours, any colour from the "RAL" colour scheme can be chosen. VetroFreddo[®] is temperature resistant up to approximately 100°C
