Stone Philosophy

Our line **COLLEZIONI** offers a luxury exclusive product consisting of items such as inlaid backlit white onyx panels, sculptured marble panels, a freestanding illuminated onyx basin, marble floor standing basins and marble counter top basins in stunning forms and shapes, with the option to customize further with an embossed design.

Applications of the backlit panels can be used in several different environments ranging from entrance lobbies to boutiques; from a dining room to a bathroom, in a lounge or a board room, in a reception hall or inside of an elevator.

Our freestanding illuminated onyx basin revolutionises the traditional concept of a basin; it is unique in its design, shape, thickness and minimal weight which has never been achieved by any other company in the stone industry. It can replace or complement the traditional floor standing or counter top marble basin.
