THE MAGICAL WORLD OF MARBLE

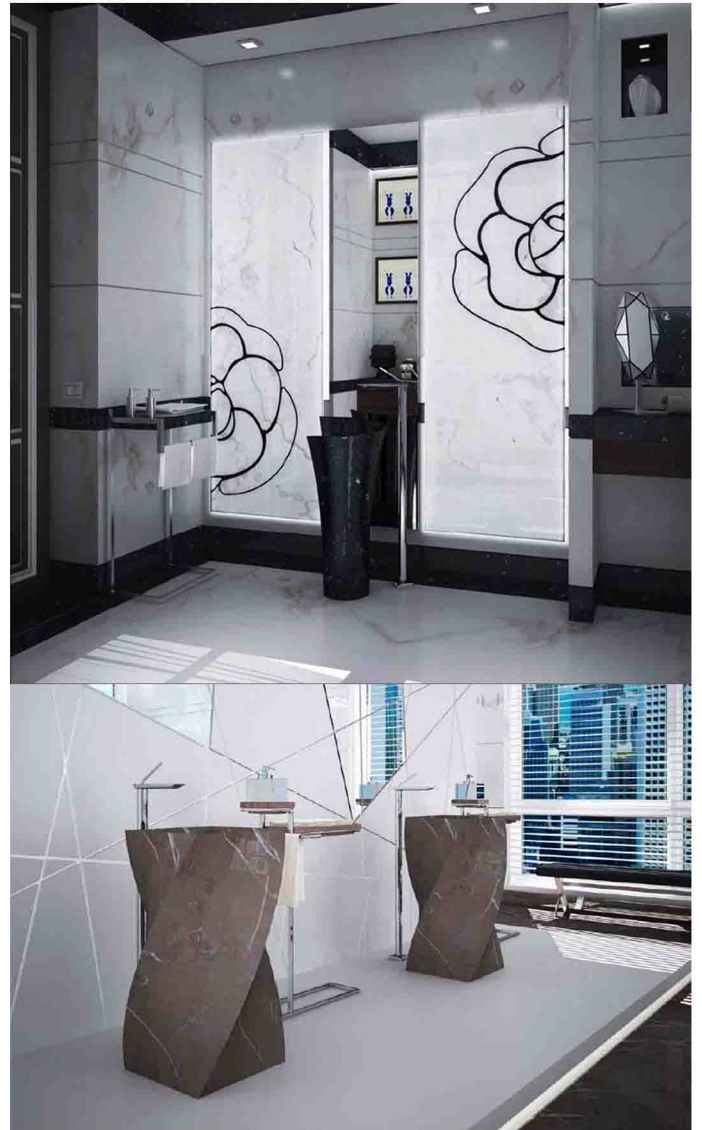

MGM
Marbles and Stones

The precise philosophy which led to the success of MGM – giving stone its true value, prestige and naturalness while keeping in contact with nature, modernity and elegance.

You can count on MGM for their state-of-the-art processing methods, giving cuttings and patterns worthy of the most capable craftsmen and architects of bygone times to meet the ever more demanding needs of professionals and customers.

The exceptional aesthetic impact of quality marble is further enhanced by semi-precious stones that go into MGM's designs for those who seek for something out of the ordinary. The countertop basins from MGM can make a big difference in your bathroom, in a subtle manner.

With the free-standing basins from MGM, it immediately magnifies the look in your bathroom! Who knew that marble basins could come in various shapes and sizes like these? And did you know that these basins are carved out of natural stones such as granite, graphite, and marble which measures only at 20mm thick and weighing around 80-100kg which is considerably light.

A STONE FROM NATURE – MARBLE

SERAFINI MARM

Marble is an ancient and precious material that has inimitable veining which allows for a wide experimentation possibilities to create unique items.

The marble and stone are natural products and may have sensible variations in color, texture, shades, intrusion of material and filling. This is to be considered a quality because it adds value to the final product making it unique and exclusive.

THE LUXURIOUS COMBINATIONS OF MARBLE AND BEAUTIFUL FINISHES

iB RUBINETTI

Marmo Collection combines marble with chrome, white, black, gold, brushed nickel, and rose gold to produce a super chic range of bathroom accessories that have modern classic written all over them.

The collection of taps in an essential geometric shape is the outcome of the collaboration between iB Rubinetti and designers: Antonio Gardoni and Federico Castelli.

With 72 products in the series ranging from basin and shower mixers to bathroom accessories, the geometric shapes are softened by the marble which is unique to every piece - the different veins ensure no two pieces are the same.

iB Rubinetti Marmo Collection is the first stone clad tap designed and manufactured in Italy. It is the perfect mix of the most refined industrial processes and the know-how of the best Italian artisans.

The cover is available in White Carrara or Black Marquina Marble. Two iconic marbles, opposite souls of the colour spectrum, but equally compact and durable. A complete collection with several shapes, sizes and functions that can be integrated easily in every bathroom.

COLOURFUL ITALIAN BATHROOMS → **FLAMINIA.**

NEW FINISHES

Colour has always been a focus of design work at Flaminia, which continues experimenting with new matte hues like Nuvola and Fango, inspired by the colours of nature, and has defined new, textured surfaces, like Bronzo and Ghisa.

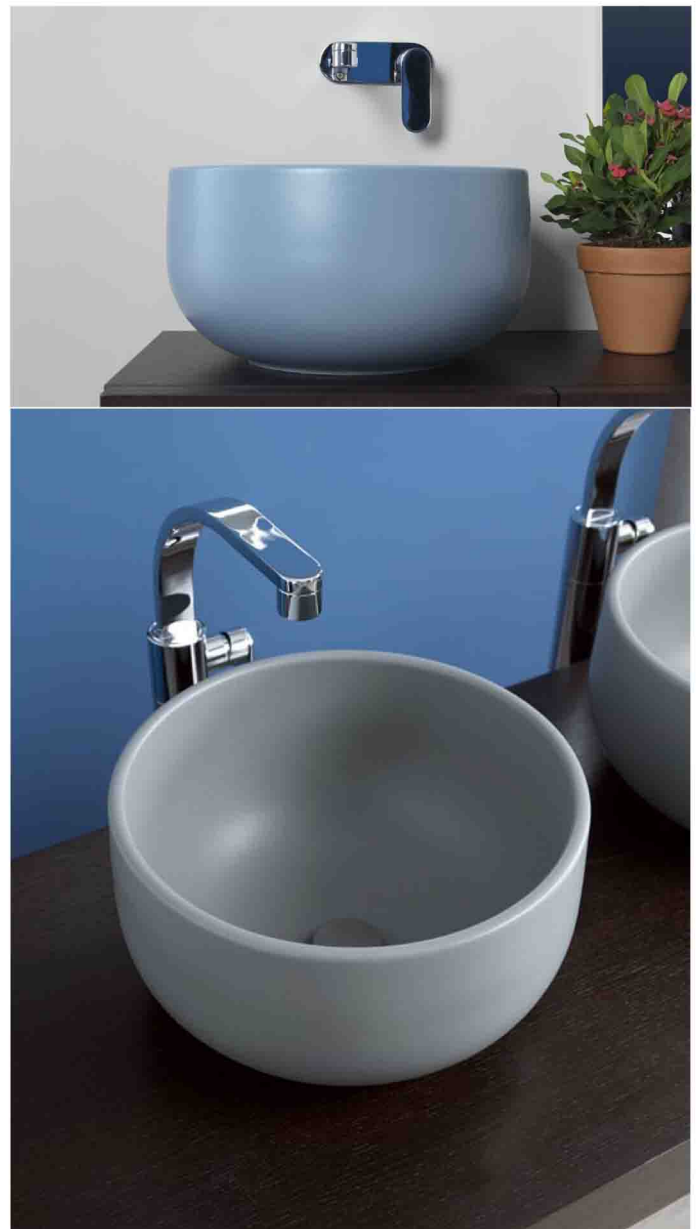

The latter two react to the light with ever changing effects, a typical characteristic of the metals – Bronze and Cast Iron – they were inspired by.

SALTODACQUA WASHBASIN

Design: Hsiang-Heng Hsiao

Slim walls, pure and smooth forms, that call to mind the ancient teacups of the Orient, are the salient traits of the Saltodacqua washbasin. It was designed by a young Taiwanese artist, selected from among the students of the Marangoni Design Campus of Milan within the framework of a contest launched by Flaminia.

LUXURIOUS MODERN-CLASSIC BATHS FROM VICTORIA+ALBERT

victoria + albert®

volcanic limestone baths

PESCADERO SERIES

Inspired by the sea, our new Pescadero bath features a unique “wave” shaped rim. With its deep and double-ended bathing well, the Pescadero is the perfect bath for wither one or two people.

Smart, sculpted details on the inside and outside of the bath create crisp shadow lines that accentuate the dynamic contours of the rim.

At a compact 1695mm long, the Pescadero freestanding bath is ideal for bathrooms large and small that require a confident design statement.

The Pescadero is named after the Californian town in the USA. Available in seven colour finishes.

RIMLESS FLUSHING TECHNOLOGY

cielo
handmade in Italy

The Cielo Smile Series WC designed by Nilo Gioacchini portrays great functionality, and its fresh design appeals to the young and chic market.

The wall-hung toilet SMILE 53 is also available in the rimless version.

The rimless toilet, provides a basin without the classical rim for the water flow. Without hidden parts, the water runs freely in the basin, running all along the surfaces and washing it effectively.

The absence of the rim allows to sanitize the entire basin with a simple gesture, avoiding the use of specific products for the cleaning of the space below the rim.
