ARRIVAL OF FLAMINIA AND VISMARAVETRO LUXURY BRANDS AT OUR NEWLY RENOVATED EQUIP-BATHROOMS SHOWROOM IN VERTEX @UBI, SINGAPORE

➔ **FLAMINIA.**

We warmly welcome our customers to visit our newly renovated bath showroom at Vertex@Ubi in Singapore. We have introduced two new brands to strengthen our positioning as a one-stop luxury sanitary solution provider. The two new brands are Flaminia and Vismaravetro from Italy.

Flaminia is an Italian producer of luxury sanitary wares since 1954. When it comes to selecting aesthetically beautiful sanitary wares in different finishes for your homes, Flaminia is the answer.

Vismaravetro celebrates its 70th anniversary this year. It is one of the most respected producers of shower enclosures in the world. Their mission is to produce shower enclosures made of tempered glass with the highest quality combining with the latest innovation to provide maximum utility for the user.

You can now experience the quality and superior aesthetics of Flaminia and Vismaravetro in our showroom.

NEW TAAAC COLLECTION: THE ROUND SHAPE OF SQUARE

Available in polished chrome, glossy white, glossy black and nickel brushed, also with an eco-friendly cartridge and two different handles, TAAAC's shape was inspired by the design of contemporary technological devices, user friendly and elegant objects we daily use in our life.

The analogy with these technological devices is the result of both the aesthetic and values demand done: the target is to reduce to the less any function and option to leave only what is really necessary.

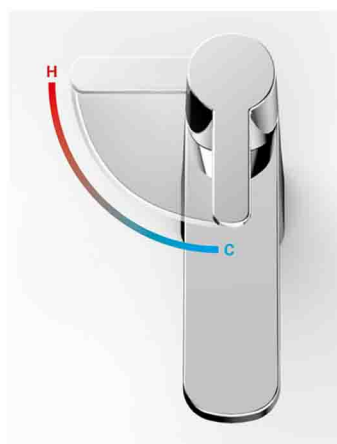

**ECO
start**

It is called TAAAC, the new bathroom collection produced by iB RUBINETTI and designed by Federico Castelli. The name refers to the Italian slang for "made immediately", "here it is" to underline the friendly approach to this new product, suitable for any space and style.

It is a collection of mixers with the idea of expressing a new universal and shared language in the bathroom context, simplifying shapes and interaction. It just makes things easy from many perspectives.

**ECO
start**

TAAAC is also available with the ecological water opening. In this way, when the lever is in the central position, it avoids the start-up of the boiler by sliding only cold water. Once the lever is turned to the left, it begins to mix cold water with the hot water. In short, ECO-start technology reduces energy wastage and saves costs!
