VICTORIA + ALBERT SUITE OF LUXURY BATHROOM SOLUTIONS

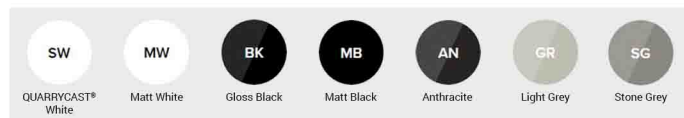

NEW COLOUR FINISHES

In response to strong demand for bespoke colour finishing, 2016 sees the roll out of special finish options to the exterior of every freestanding QUARRYCAST® bath and basin.

Created using the finest materials and techniques, the new options include four specially selected paint colours and two additional matt finishes.

Each finish is multi layered using a specialist catalysed paint, with hand polishing between applications. The technique results in an exceptional depth and lustre to the finish, and is considerably more durable than hand painted surfaces.

Available colours are Matt White, Matt Black, Gloss Black, Anthracite, Light Grey and Stone Grey in addition to our natural QUARRYCAST® White finish.

NEW BATH DESIGNS

We are delighted to launch three new freestanding bath series with unique details and iconic lines in each design.

PESCADERO SERIES

Inspired by the sea, our new Pescadero bath features a unique “wave” shaped rim. With its deep and double-ended bathing well, the Pescadero is the perfect bath for one or two people.

Smart, sculpted details on the inside and outside of the bath create crisp shadow lines that accentuate the dynamic contours of the rim.

At a compact 1695mm long, the Pescadero is ideal for bathrooms large and small that require a confident design statement.

The Pescadero is named after the Californian town in the USA.

Available in seven colour finishes (inclusive of standard Gloss White finish).

TERRASSA SERIES

The Terrassa is a double-ended bath with unique detailing. At just 1702mm in length, it is the perfect match for a contemporary bathroom of any size.

Taking many of its design cues from Victoria + Albert's popular Barcelona bath, the Terrassa offers a new and exciting alternative. Its smart sculpted swage details on the inside of the bath create crisp, distinctive shadow lines. The rimless design is synonymous with Victoria + Albert's modern collection.

The Terrassa is named after the Spanish city in the province of Barcelona.

Available in seven colour finishes (inclusive of Standard Gloss White Finish).

WARNDON SERIES

With its classically ribbed rim, the Warndon's form adopts the detailing originally found in classic stonework and embodies a rich history suitable for a range of interiors.

Following the traditional design rules of strict symmetry, the double-ended freestanding bath makes a perfect visual centrepiece to enhance balance in the bathroom.

The design falls gracefully to the floor allowing all waste pipe work to be hidden and maintaining a sleek bathroom finish.

The Warndon takes its name from the small town on the outskirts of the famous English Cathedral City of Worcester.

Available in seven colour finishes (inclusive of Standard Gloss White Finish).
