

Design Professionals are spoilt for choice when it comes to selecting premium bathroom fittings and wares from Europe to fit out their projects. These products include: faucets, rainshowers, sanitary wares, bathtubs and accessories. Many established European brands are already present in Southeast Asia, and some marque brands dominate this market.

The missing puzzle: The shower enclosure

However, when it comes to selecting premium imported European shower enclosures or screens, Design Professionals are left with very few options in the market to choose from. As a result, they often get local contractors to customise the production of these shower enclosures/screens. This means that it is a rare sight to see an entire bathroom specified with premium European bathroom fixtures. The product that always seems to be left out is the shower enclosure/screen. This is surprising, considering that a lot of time and effort normally goes into specifying the bathroom fittings and fixtures of high-end projects to create the luxe look and feel. So why are we compromising on the premium shower enclosure/screen? Most people will lament that they simply cannot find any good options in the market.

We want to put that ghost to rest. Enter Vismaravetro – a proven Italian producer of premium shower enclosures/screens since 1947. The Vismaravetro shower enclosures/screens comprise of several product collections with a strong ability to realise any interior design concept. Vismaravetro shower enclosures/screens allow Design Professionals to make customised selections with regards to the configuration, choice of glass and profile finishes. Most importantly, Vismaravetro shower enclosures/screens are Made-to-Measure, ensuring that any space can be accurately addressed with a Vismaravetro solution.

100% Personal: Create your own look

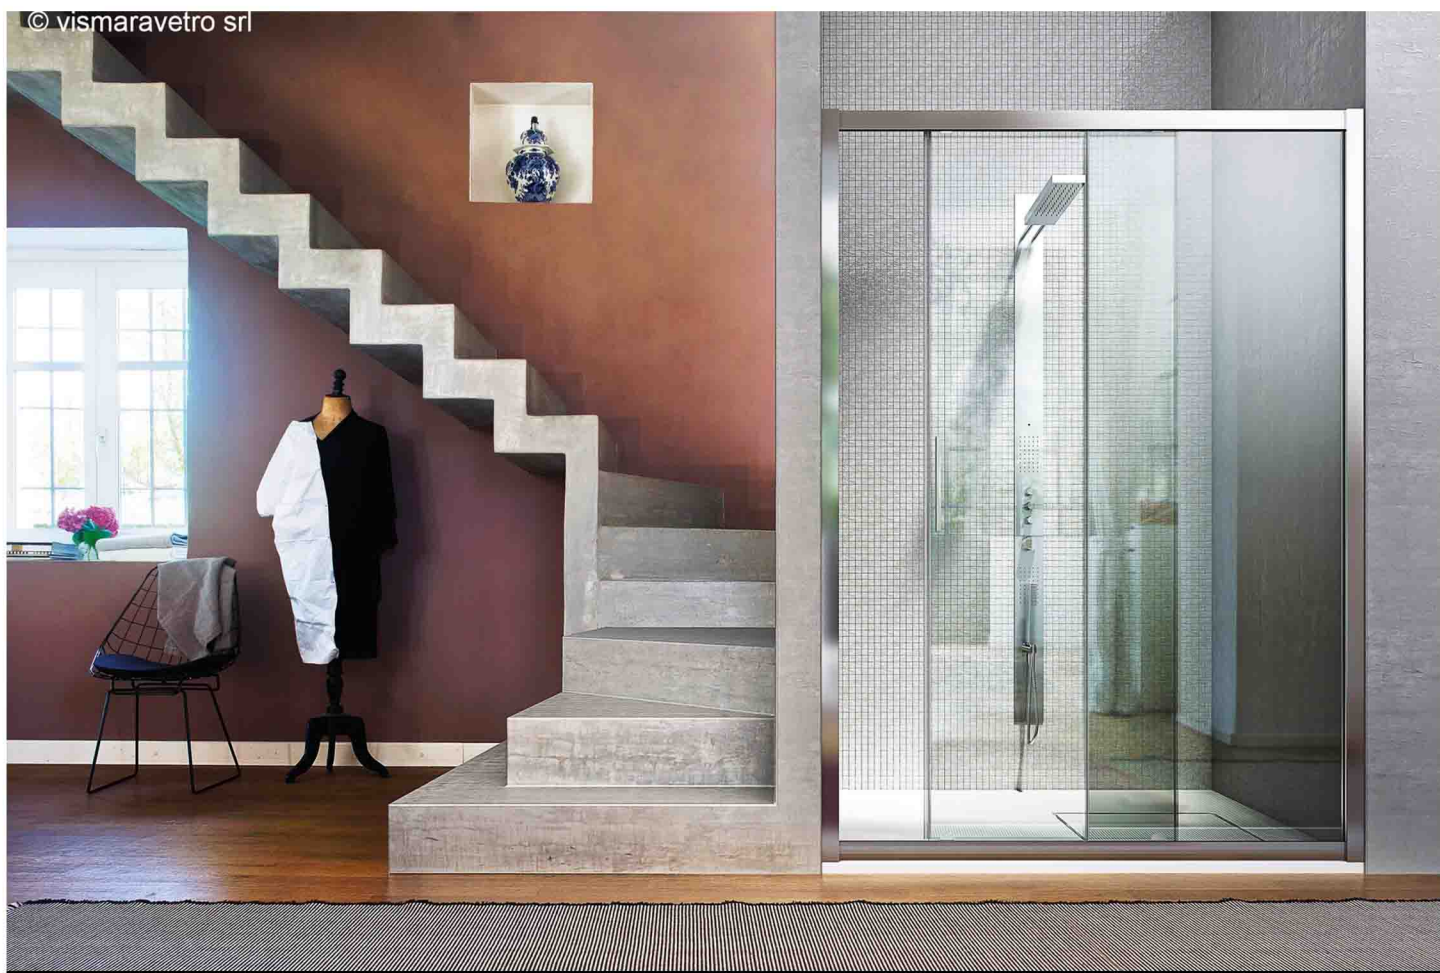

Vismaravetro shower units are underpinned by a complex and highly versatile design to fit any space and user requirements. Size, position of the technical compartment, shower tray and type of opening can be changed. You can select from a wide range of Handles, Profiles, Hinges and Glass type. Note: Vismaravetro shower enclosures/screens can be installed directly on marble or tiles (without the shower tray).

Tempered Glass

All Vismaravetro shower enclosures/screens are made of 6mm or 8mm tempered glass (depending on the collection). You can select from 8 different types of crystal to customise the shower units. The tempered glass also complies with international safety standards.

Bespoke colours for aluminium profiles

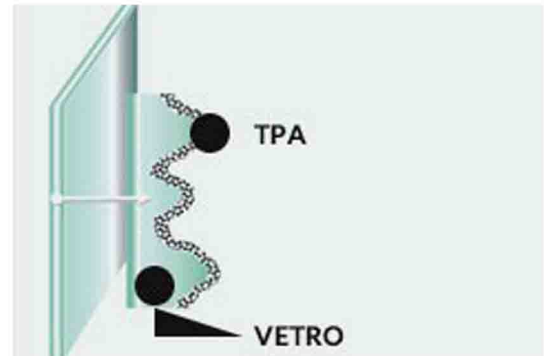

You can further personalise your shower enclosures or shower screens by customising the aluminium profiles

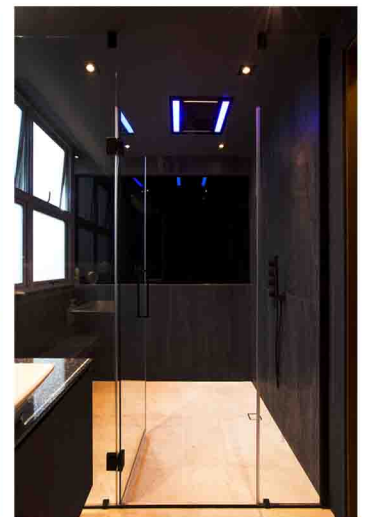

Easy cleaning and maintenance

Opt for Vismaravetro's patented TPA treatment on the glass. The glass surface is treated with a polymer which limits the adhesive properties of residues such as limescale, grease and soap deposits. With TPA treated glass, users can easily clean and maintain the shower enclosure/screen product.

Why Choose Vismaravetro Italian Shower Enclosures?

- Made-to-Measure shower enclosure solutions are available for any shower space.
- Select your preferred door opening configuration (i.e., Swing Door, Sliding Door or Bi-Fold Door).
- Patented technology (TPA) is applied on the tempered glass for easy cleaning and maintenance.
- Made in Italy.
- 5-Year Warranty.

New! Presenting the Vismaravetro, Suite Collection
