

**BESPOKE ITALIAN BATHROOM &
WELLNESS FITTINGS FOR YOUR HOME**

WE ARE IB

Suitable for New Built Landed Houses, Condominiums
or Bathroom Improvement Projects in Singapore

IB's products do not emerge just from tradition, but also from the encounter with the most advanced technological innovations and from an attention to details and to technical and aesthetic qualities without equal. Another revolutionary element is the desire to internalize the whole production chain: IB is involved in the manufacturing and the production of every single component, from the raw material to the most particular finishes.

An innovation that doesn't stop at the content, but also concerns the form. First in history, IB has become, since the beginning of the 2000s, a constant sponsor and collaborator in the field of Italian design, combining functionality of form with innovation in aesthetics. Therefore, our enterprise chooses the path of a design categorically made in Italy, as the only possible solution to create a future that learns from history and progresses towards new horizons.

**The goal is always
to develop
high-design
projects.**

Operative in sixty-four countries and over five continents, the IB brand has become the ambassador of Italian design production worldwide.

From the idea to the product.

The design and manufacturing processes of IB Rubinetti products take place entirely within the company: from design to engineering, from plating to assembly, each step is performed under the watchful eye and capable hands of our enterprise.

Il percorso di progettazione e fabbricazione dei prodotti IB si svolge integralmente all'interno dell'azienda: dal design all'ingegnerizzazione, dalla cromatura fino all'assemblaggio, ogni passaggio viene svolto sotto l'occhio attento e le mani esperte dei nostri operatori.

Le parcours de conception et de fabrication des produits IB Rubinetti se déroule entièrement à l'intérieur de l'entreprise: du design à l'ingénierie, du chromage à l'assemblage, chaque étape est réalisée sous les yeux vigilants et les mains expertes de notre société.

Material

IB Rubinetti uses all its expertise to promote innovation and customer care, starting from the choice of the raw material, a particular alloy of lead and zinc-free brass, which guarantees hypoallergenic and eco-friendly products.

IB Rubinetti mette tutta la sua esperienza al servizio dell'innovazione e della cura del cliente, a partire dalla scelta della materia prima, una particolare lega d'ottone priva di zinco e piombo che assicura un prodotto anallergico ed ecofriendly.

IB Rubinetti met toute son expérience au service de l'innovation et du service à la clientèle, à partir du choix de la matière première, un alliage particulier de laiton, sans zinc ou plomb, qui assure un produit anallergique et écologique.

We are all finishes company.

Every human being is a range of perceptions, unrepeatable in its originality. IB Rubinetti allows you to decorate your bathroom choosing from a selection of sixteen finishes, directly attended by our chrome plating department, in order to mirror your incomparable personality in every detail. All finishes are made by IB with the best technology and know-how to guarantee your peace of mind.

From the faucet to the flush plate, one finishing, your favourite.

Ogni essere umano è un ventaglio inedito di sensazioni, irripetibile nella sua originalità. IB Rubinetti permette di ornare il tuo bagno scegliendo tra una gamma di sedici finiture, direttamente curate dal nostro reparto di cromatura, per riflettere in ogni dettaglio la tua ineguagliabile personalità. Tutte le finiture sono realizzate da IB con la migliore tecnologia per garantire la massima qualità.

Dal rubinetto alla placca del WC in un'unica finitura, la tua preferita.

Chaque être humain est un éventail de perceptions, unique dans son originalité.

IB Rubinetti vous permet de décorer votre salle de bain en choisissant parmi une gamme de seize finitions, directement gérée par notre département de chromage, afin de retrouver dans les moindres détails votre incomparable personnalité. Toutes ces finitions sont fabriquées par IB avec la meilleure technologie et savoir-faire pour garantir votre tranquillité d'esprit. Du robinet à la plaque de commande WC, tout en une seule finition, votre favorite.

LEAD FREE

We use only lead-free brass.

Noi usiamo solo ottone senza piombo.

Nous n'utilisons que du laiton sans Plomb.

ZINC FREE

We use only zinc-free brass.

Noi usiamo solo ottone senza zinco.

Nous n'utilisons que du laiton sans zinc.

WARRANTY

All IB Rubinetti products have a 10-years warranty.

Tutti i prodotti IB Rubinetti godono di 10 anni di garanzia.

Tous les produits IB ont une garantie de 10 ans.

ORIGIN

We only use materials from Europe.

Noi usiamo solo materiale proveniente dall'Europa.

Nous n'utilisons que des matériaux d'Europe.

Trivalent Chrome (Cr3+)

Cromo trivalente (Cr3+)
Chrome trivalent (Cr3+)

Trivalent chrome (Cr3+) is a surface finishing technique used to protect and confer a chrome finish to brass. In this process, a layer of trivalent chromium is deposited on the surface of the metal to be treated using an electrolytic solution (electroplating).

Trivalent chromium has several advantages, the most important of which is that it is completely non-toxic to the environment and workers involved in the chrome plating process.

Il cromo trivalente (Cr3+) è una tecnica di finitura superficiale utilizzata per proteggere e conferire la finitura cromo all'ottone. In questo processo, uno strato di cromo trivalente viene depositato sulla superficie del metallo da trattare mediante una soluzione elettrolitica (riporto galvanico).

Il cromo trivalente presenta diversi vantaggi tra cui, il più importante, è completamente atossico per l'ambiente e per gli operatori che lavorano alla cromatura.

Le chrome trivalent (Cr3+) est une technique de finition de surface utilisée pour protéger et conférer la finition chromée au laiton. Dans ce procédé, une couche de chrome trivalent est déposée sur la surface du métal à traiter à l'aide d'une solution électrolytique (revêtement galvanique).

Le chrome trivalent présente plusieurs avantages, le plus important étant qu'il est totalement non toxique pour l'environnement et pour les opérateurs qui travaillent sur le chromage.
